REGULAR DEMOCRATIC NATION-
AL NOMINATIONS
FOR PRESIDENT.

STEPHEN ARNOLD DOUGLAS,
OF ILLINOIS.

FOR VICE PRESIDENT,
HERSCHEL V. JOHNSON,
OF GEORGIA.

FRIDAY MORNING.—JUNE 29, 1860.

What is to be Expected from the Free
States?

The meeting at Columbus, Ind., yesterday, is ominous. It was a District Convention to nominate a candidate for Congress. It was the only district which any division from Douglas and Johnson was made.

Indiana we are informed, will surely give the Little Giant a majority of their votes.

Let Indianapolis rule for the gallant leader of the National Democracy. The following is the resolution:

Resolved, That we accept and endorse the platform adopted by the Democratic party of Indiana at its last State Convention, and that the National Democracy adopted at Chicago, as an addition thereto, and declare that we will support STEPHEN A. DOUGLAS AND HERSCHEL V. JOHNSON as the regular nominees of the party for President and Vice President of the United States.

What is to be Expected from the Free
States?

The committee consisted of Jas. S. Hersey, of Brown county; W. C. Tarkington, of Monroe; D. M. Hill, of Jennings; C. Case, of Switzerland; U. E. Strubling, of Bartholomew; M. W. Shields, of Jackson.

There is much talk among the Servants of the master in which Douglas received so many votes. They endeavor to whitewash a majority at Charleston and Baltimore by divers ingenious methods. They are dropping, cutting, and whitening, at their own will and pleasure, and insinuating, in the very name of Douglas, that he is nominating his own supporters.

The editor of the New York News says he cannot express his feelings. He had better apply to Adams & Co.'s express agents.

W. H. Walker, Esq., left for New York en route for Europe, yesterday, and will sail next Wednesday.

Letter from Illinois.

CHICAGO, Wednesday, June 21, 1860.
Moses, Harney, & Co., Tailors.

Citizens!—Assist me yet another of your *readers* to hear from this part of the States. I will pen a few lines, if not interesting, shall not be tedious. Grayville is in what might properly be termed Northern Egypt, (IP). It is situated on the Big Wahab river above New Harmony, (Ind.), six or seven miles. It is a flourishing village claiming to have twelve hundred inhabitants, and is surrounded by the best of farmers, who are up and doing, and never did they appear more determined in their labors than they do to the present season. The farmers have been harvesting their wheat and rye past week and have been with fine and grainy, having had but one shower since they commenced; the weather is warm, but very dry. The wheat is much better in this country than it was once thought it could be, and there will be at least one-half to two-thirds of an average crop. The grain is very large and plump; and so after all the complaint about the wheat crop in this section, I am sure none need suffer for want of a bushel in Egypt. It is believed by the oldest settlers that the prospect for an abundant crop of corn never has been better in this country than it is now. Last year, upon a more comprehensive survey of Non-invention by Congress with slavery in the States and Territories.

Another resolution, instead of breaking up the Union, seems to pledge, by the power of organization, to unite all the parts of the country in a great cause. We may infer, from the language used, that the delegates nominated by each State conventions to vote for whom or in such manner as may seem best. Delegates are to act as a sectional candidat, ought to be distanced at all hazards, and Breckinridge and Lane ticket will go no aid and comfort in Indiana.

The Democracy there will stand fast by the nominees of the party at Baltimore, and they will carry their State easily, not only for President but for State officers.

Hurrah for Douglas and Hendricks! The Black Republicans may read them down in Indiana. They can't win. The State is safe.

Breckinridge and Lane is the ticket to save the Union, so Governor Wise is reported to have said. It is not the first eccentricity that the Governor has been guilty of. It will be funny if the Disunion ticket is supported to save the Union. Leaving out all professions, the effect of this Southern movement is too obvious to deceive any one. If the South deems the ticket nominated by the regular Convention, of course the Democracy of the North will meet us in a National Convention.

After all the trouble and expense of a Convention, the administration for a cause, except that majority will change the platform at their discretion, and will not affect the delegates they prefer.

Some of the States instructed their delegations to vote as a unit. It was their duty to do so. Others with the same full knowledge left them free to vote as they pleased. The question was brought up at Charleston. It occurred in the case of Georgia. It must be understood, at least it is only fair to infer, that the result of the decision in giving majorities either to one side or the other was not regarded. To assume otherwise is to infer that the President of the convention wished to act unfairly and *against* Douglas. This is trifling with the moral obligations under which men who attend such bodies are subjected to themselves. It is idle to meet in Convention with them. Breckinridge and Lane, therefore, lead a Southern faction, separated now and forever from all political association with the free States. We are told of a Breckinridge ticket that will do exploits in the free States, but any well-informed man will only be amazed by such stories. Mr. Fillmore's ticket, in 1856, was five-fold stronger than Breckinridge in that section of the Union at present. The Douglasites in Lane made a fair experiment, and they had better success than their faction will have anywhere.

If Democrats South, then, go off into this movement, they must make up their minds to be a purely Southern party. And they willing to occupy such a position? After it has been their boast that they belonged to a national party, and the only national party, as they used to subscribe into a sectional party.

The Douglassites have been compelled to want of a united South. This is the object. They will expect to elect a President. Indeed they prefer to see Lincoln elected; for it will protect their designs.

We are aware that a few in this State intend disunion; but what other object do they expect to accomplish by holding the Democratic ticket?

They separate themselves from all national men North, not only now but forever. They can hardly expect the men North, that they desert at this crisis, ever to meet them again. They can't effect any political purpose they have in the Union. They are a hopeless minority in the Union if they had the whole South. What rational object, then, have they?

Disunion is all the object they can aid. Their object subserves only that purpose, which they intend to do.

The Democratic Congressional Convention in the Third District (late Huges'), Indiana, held at Columbus, on Tuesday last, nominated W. M. Dally for Congress, and endorsed unanimously the resolutions adopted by the regular Democratic Convention at Columbus, and, as far as I can learn, by the same Convention at Indianapolis, and also endorsed the nomination of Douglas and Johnson, and also endorsed and approved the nomination of Douglas and Johnson. Governor Willard and Mr. Lamman were present, and made a speech, appealing to the nomination of the regular Democracy at Baltimore. Such are the signs of the times, in Indiana, now enthusiastic for Douglas.

We will call the particular attention of every reader to the advertisement of McLean's STRENGTHENING CORAL and VOLCANO OIL LIMENT. They are too well known in this community to require recommendations. But there are many of our readers who are suffering from a derangement of the digestive organs, without the slightest idea of the real cause, giving rise to symptoms such as debility, nervous, unpleasant feelings, indigestion, lack of energy, making eating difficult, &c. If you are suffering from any of these symptoms, apply to your doctor, and I will give immediate relief. To all who may be affected with Sore or Pains of any kind, try the Liniment. See the advertising in another column. J. J. LATHAM.

HOMIC TESTIMONY.

Dr. C. W. REEDER, M. D., Louisville, Ky., Aug. 30, 1860.

Dear Sir: — For the past several months I have been laboring under great weakness and general debility, much of the time confined to my bed, and for which I have been advised to seek a change of climate. After using some of your blood pills and blood powder, purchased of your agent, Mr. H. H. Plummer, I feel as a new person, almost entirely free from disease, and would recommend your medicines to all who are in need of valuable remedies.

Yours truly,

MARY T. HOFFMAN.
